THE DOTHAN EAGLE

Pay cash and get a 3 line want ad 3 times for twenty five cents.

Dothan's Population: 1890, 247; 1900, 3,275; 1910, 7,016; 1920, 20,000--"For I heard them say, Let us go to Dothan."

UME 4? | DOTHAN, ALABAMA, FRIDAY EVENING, APRIL 19, 1912 | NUMBER 181

IUCE ISHMAN, OF MERCANTILE MARINE CO., WAS FIRST TO JUMP INTO LOWERED LIFE BOAT

...e Committee Asking About ...ne Boat Was Making and How ...Was Provided For Safety of ...sengers.

...w York, April 19 —(Special to ...Eagle)—J Bruce Ishmin, ...aging director of the Mercantile ...ne Company, which owns the ...e Star Line, is testifying under ... before the United States Senate ...tigating Committee which is ...tigating the Titanic disaster ...e at the time the liner crashed ... the iceberg she was making 21 ...s or 26 miles per hour. He also ...itted that there were no life ... on the boat and that he was ...ng the first to leave the sink... vessel and that he jumped into ... of the first boats that were ...ched.

...w York April 19 (Special to ...Eagle)---Survivors after survey ...f the ill fated Titanic tell the ... heart rendering story of the ...ing ship. Details are painfully ...lar. Total loss officially fixed ...585.

...he heroism of Maj Archibald ... and Col John Jacob Astor was ...layed to the last. None of the ... first reported lost, escaped.

...he Senate Committee began in...igations today of the catastro... and President Ismay of the ...te Star Line will be asked som...ted questions.

Mrs Jack Futrelle Talks

...rs Jacques Futrelle whose hus...band the noted novelist was lost declared that few men except those required to man the boats, slipped in the life boats during the trying and exciting hour. Mrs Futrelle says

I was just going to bed when the crash came. Jack was smoking in the saloon. The shock threw me down and I was struggling to my feet when Jack rushed in and cried 'Get dressed at once the boat is going down.'

We found everything in confusion on deck and we women were screaming and rushing frantically about calling husbands and children while the officers roared orders above all boomed a tremendous bass in the Titanic's fog.

The behavior of the men on the most of them when told to stand aside and give the women and children first place on the life boats was magnificent. Few cowards tried to rush them but were thrown back.

I was placed on one of the first boats to leave the Titanic. Jack poor boy was very brave when the time came to say good bye and with a final kiss he lifted me on the boat saying hurry up Mrs you are keeping others waiting. I thought I saw Jack waving to me as the Titanic went down.

Ten Minute's Work Saved 705

The wireless operator of the Carpathia by working ten minutes over time saved 705 people victims of the Titanic. Dr J F Kemp the ship physician says that Harold Cotton the ship's wireless operator was about to retire Sunday night when he jokingly remarked I guess I will do ten minutes extra overtime then turn in. It was during those ten minutes that Cotton picked up the wireless distress signal from the sinking Titanic. Had he left his post earlier he would have known nothing of the disaster and all would have been lost very likely but the Carpathia was the nearest ship and made straight for the Titanic.

Very Important Notice To All The Contestants in the J. M. Brown & Son $400.00 Piano Contest

All inactive contestants will be dropped May 1st. When we say inactive, we refer to all that has not taken interest enough in the contest by that time to have turned in 50,000 PERSONAL VOTES. If you wish to remain in the contest please note the above, and govern yourselves accordingly.

The Fastest Way To Obtain Votes

First, sell our $5.00 Trading Books and get 50,000 votes.

Second, subscribe to The Dothan Daily Eagle for One Year, 50,000 votes, or pay up your old subscription and get 50,000 votes, or 5,000 for every dollar paid The Eagle.

With all the above inducements, it is not very probable we will have to drop a single contestant and all that don't take advantage of this by the above date, we will take it for granted that they would not appreciate the Piano, even if their friends should give it to them, and their names will be dropped as above stated

We would be glad to see every contestant at our store that we are not personally acquainted with, and those that we are, for further information that they may need

SHOES, FOOTWEAR FOR MEN AND WOMEN

FREIGHT WRECK ON CENTRAL OF GA.

TRANSFER OF PASSENGERS ON TRAIN 10 PREVENTS A LONG LAY OVER

Seven box cars on a freight on the Central of Georgia road about three miles east of the city this morning jumped the track and as a result traffic on that road has been tied up since that time. The track was torn up for several hundred feet and in the wreck several box cars were badly damaged and two were *almost completely demolished* in the wreck.

The wreck occurred just a short while before passenger train No 10 due here at 11 15 passed and thus blocked its way. The passenger was then backed up to Webb where it remained until this afternoon when a train made up here went to the scene and transferred the passengers and freight.

A large crew of workmen are busy in an effort to get the debris cleared and new track built in time for the passenger train that passes here at 4 10 in the afternoon.

Three of the box cars were thrown into the ditch to await the wrecker and some of them were brought to Dothan this morning.

No one was injured.

JACK FUTRELLE HAS VISITED IN DOTHAN

Jack Futrelle the noted novelist who went down on the Titanic has visited in Dothan. During the years of 1906 and 1907 his father W H Futrelle lived in Dothan. He was a hardware drummer and he and his wife made Dothan headquarters and boarded at the Hotel Mullen. It was while they were living here in 1907 that their son Jack Futrelle visited them over Sunday leaving Monday morning for ... where he took ... to ... back to New York.

FIREMAN BURNS HANDS

OVER 100 PEOPLE HAVE PERISHED IN FLOODS IN PAST DAY

WHOLE FAMILIES ARE WASHED AWAY WHEN MORE LEVEES BREAK

Memphis Tenn April 19 (Special to the Eagle) A hundred persons have perished in the flood disaster during the last 24 hours according to army engineers report. Some were drowned and some died of exhaustion and starvation. Whole families are wiped out where levees were standing. Rowdale ... crowded with women and children and ... refugees ...

The ... Memphis. They have been without food for over 18 hours. Many small towns in the delta section are over twenty feet under water.

ANOTHER BAD CYCLONE REPORTED NEAR ABBEVILLE

Another bad cyclone has been reported in Henry county and this time it was near Abbeville and Shorterville. A number of houses were blown down and the crops in the district struck by the storm are practically ruined. No one was killed but three negroes were badly injured in the storm. Several horses and other stock were killed. The cyclone occurred about 5 o'clock Wednesday morning.

30,000 VOICES

And Many Are The Voices of Dothan People

Thirty thousand voices. What a grand chorus! And that's the number of American men and women who are publicly praising Doan's Kidney Pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it to the home papers. Dothan people are in this chorus. Here's a Dothan case:

Mrs. Hattie Merrill, 600 S Appletree St, Dothan, Ala., says: "We have used Doan's Kidney Pills in the family with splendid results. One of the family had backache and the kidneys were out of order. Doan's Kidney Pills were taken and they made a marked improvement."

If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Merrill had—the remedy backed by home testimony. 50 cents all stores. Foster-Milburn Co., Props. Buffalo, N. Y.

HENRY HOLLAND ARRESTED FOR MAKING MOONSHINE

Henry Holland who lives about five miles from Dothan was arrested yesterday and brought to this city by Deputy U. S. Marshal ... charged with illicit distilling.

A complete distillery and a large quantity of beer and rum were discovered on Holland's place by ... and other officers and his arrest followed yesterday. He stated that he would plead guilty to the charge.

ENGINEERS THREATEN A GENERAL STRIKE

New York April 19 Special A general strike is threatened by the engineers today made by Warren S Stone Grand Chief of the Brotherhood of Locomotive Engineers. He writes a letter to the general managers of forty lines east of the Mississippi and threatens a general strike unless they modify their recent refusal to raise men's wages that it be fixed at eight o'clock tonight.

Office Eagle Building East Troy St Telephone No. 113

Friday, April 1 1912

About half of the people are ... what the other half does ... was.

Knowing just when to stop ... is of much more importance than when you ...

The Atlantic Coast Line has ... in for a good many delays on its passenger schedule for the last few weeks.

We once thought that Georgia took its politics more serious than any other state but when the Florida papers come we ... Florida.

Some day it may be definitely known how many people went down on the Titanic or just why the preservers of life boats were not provided for the passenger list.

When a man has gone all of the political paths and tried all of the offices he could reasonably expect to hold and is finally ... down on back stairs and a down and outer he then realizes that he made a mistake by ever entering the political profession.

Some of the papers are handling it as a news item this report that Jess Stallings and the Governor is falling out. That's nothing new. They haven't been very thick since the governor first got in and checked over the list of offices to hand out, and didn't find one for Jess.

The meat and bread question is settled in this country. Most people have enough meat to do them and there is plenty of corn in the country although corn is selling higher than it has in twenty years. The way for the meat and bread question to stay settled in this county is to keep plenty of corn and hogs coming in.

The situation as regards the national democratic nominee for president may be critical but it is nothing like the present outlook in republican ranks. The party leaders of the country don't know who to stand up for when their names are called and they are acting wisely by saying no more than they can possibly help.

Comer hasn't been heard from since the alarm was sent out the other day that his advice was wanted as to what to do with the L. & N. situation. At that will be more apt to be for Comer to announce his intentions of coming back into political activity in Alabama than the L. & N. Railroad will come to him. This fear Comer as the devil is said to fear holy water whatever that is.

We see where Old Man Greer of the Marion Standard has bought a linotype machine and expects to do things ... He will have to do things as they come ... the experience of some newspaper men with them ... linotype machine is not called easy. However, Bro. Greer ... been in business long enough to know what he wants and we have often wondered why he didn't buy a machine to give the final touch to his very appearing country weekly.

HE WAS IN BAD

A bank cashier by the name of Arnold up in New York who had three or four hundred thousand dollars of the bank's money and saw that he would soon be arrested tried to hire a band of safe crackers to blow the vaults of another bank where he knew the evidence of his

guilt was deposited. He tried to get the cracksman to do the job. Now he has nothing to do after forty years of banking activities but to ... in the penitentiary ... when ...

Even after the testimony is all in ... revenue from the sale of liquor the citizens found it necessary to go down in their pockets to raise a fund to keep the schools running much as the people of Dothan do. We have paid out tuition in money from our own pockets in Dothan so long that we don't expect much from any other source. But we did think that a town that had been put out of business because it was not selling whiskey would catch its wind by this time at least enough to keep from making a call on the citizens of the ... school for money to ... would ... running.

ROMANS

For I reckon that the sufferings of this present time are not worthy to be compared with glory which shall be revealed in us.

Because the creature itself also shall be delivered from the bondage of corruption into the glorious liberty of the children of God.

For we are saved by hope: but hope that is seen is not hope: for what a man seeth, why doth he yet hope for it? But if we hope for that we see not, then do with patience wait for it.

And we know that all things work together for good to them that love God to them who are called according to his purpose.

THINK OF IT

We didn't think Houston county has as many convicts as other counties of similar population. There is this from the Andalusia Star: Forty county convicts on the roads of Covington county every day except Sunda would give us fine ... days work on our roads ... That would soon bring about good roads wouldn't it?

Suppose it would. Here Houston is trying to build good roads with less than ten convicts. But suppose that we are to get some consolation that not many people don't pan out convicts like Covington does.

The ... of the country editors used to be proverbial but times have changed. Bert Walker of the Osborne Farmer has gone to California on another loafing trip and this just after paying about a million dollars for a linotype machine. A dozen country editors could be named who make money and gets lots of pleasure out of life and they all publish good papers. The editors who live on sympathies are the ones who neglect their papers to snort around among the politicians. —Lafayette Gazette.

SPICES AS PRESERVATIVES

The controversy in regard to the use of chemical preservatives may ... to mind us of the little valued properties of some of the food condiments. It is a matter of common knowledge that fruits and vegetables prepared with the addition of vinegar and spices keep far better than do those put up alone. One need merely recall the well favored home made catsups and pickles but something more than the ... of success is necessary to convince the up to date food consumer. He has been ... to demand exact scientific evidence for the truth of the most hallowed traditions of the culinary art. Just what condiments have value as food preservatives has not been exactly ... determined. According to the observations of Hoffman and Evans of apple sauce (which they use for material for study) ginger black pepper and cayenne pepper do not prevent the growth of germs whereas cinnamon cloves and mustard are valuable preservatives and mustard and allspice delay growth. Cinnamon and mustard are particularly valuable for they are palatable even when used in proportions that prevent all growth of germs.

The active antiseptic constituents of mustard cinnamon and cloves and their aromatic or essential oils. Cinnamon appears to possess a preservative action superior to that of benzoic acid and aids materially in preventing the spoiling of foods to which the condiment is added. In view of these experiments the Journal of the American Medical Association urges the more liberal use of the delicious cinnamon and cloves in place of such ineffective spices and pepper and ginger. The latter is commonly irritating and now that we know condiments which quite surpass the irritating preservatives the use of the irritating type in preserved foods may appropriately be restricted to the purpose of flavoring alone. It is a lucky coincidence that some of the most attractive flavoring spices also help to the food from spoiling.

AMAZING PROGRESS OF THE SOUTH

From the Manufacturers Record.

In the last 30 years the population of the South has increased ... per cent but during the same period the capital invested in manufacturing increased 600 per cent the value of mineral products 19 0 per cent the output of coal 1 00 per cent the value of farm lands and buildings ... per cent the resources of national banks 5.. per cent and the expenditures for common schools ... per cent. These figures indicate something of the amazing increase in production in manufactures and in banking capital as compared with the increase in population.

The value of farm products in the South in 1880 was $... 000 000. Last year the amount was over $3 000 000 000 and was greater by $100 000 000 than the value of all the farm crops of the United States in 1880.

The value of exports from southern ports last year was $... 000 000 as compared with $... 000 000 for the entire country in 1890.

In 1880 the corn crop of the country was 1 ... 000 000 bushels while the corn crop of the South in 1910 was 1 ... 000 000 bushels. It is true that the corn crop of the country in 1880 was less than the average but these figures give an idea of the rapid development of corn growing in the South when in one year it could produce a crop almost as large as ... small crop of the entire country in 1880.

The population of the 16 Southern States is 31 000 000 while that of the United States in 1880 was 50 000 000 but the capital invested in manufacturing in the South is now $3 000 000 000 or $700 000 000 more than the total capital invested in manufacturing in the United States in 1880.

The South has now 1 000 000 more cotton spindles than the United States had in 1880. The value of its mineral product last year was $... 000 000 or $5 000 000 more than the total value of the mineral products in the United States in 1880.

Last year the south mined 11... 000 000 tons of coal while in 1880 the United States mined of bituminous and anthracite coal only 7... 480 000 tons.

Possibly the most striking illustration of the increasing wealth of the South is that though its population is 1... 000 000 less than that of the United States in 1880 the individual deposits in its national banks exceed the individual deposits in the national banks of the United States in 1880 by $... 000 000.

The South now spends for common school education over $... 000 000 or a little more than the total expenditure of the United States on ... common school.

These facts merely show what the South has achieved in things that can be ... in figures. They do not however show the gain that has been made in the accumulated experience in the momentum developed in the world wide recognition achieved of the South's amazing resources and of the almost limitless field which it offers for the finest men of capital whether that capital be in money or brains or brawn.

The South indeed the nation's greatest possession. Greatest in the material wealth to be achieved greatest in the influence which its geographical location its dominance of the world's cotton trade and its enormous resources of coal and iron and other minerals will give to it in world commerce greatest in the strength of its Anglo-Saxon civilization and the influence that will ultimately have in shaping the destiny of the country.

The Kitchen Cabinet

WHEN a man ... will trust his wife with his ca... his honor ... trust her and his children and will not ... widet with his purse, it is easy to see on ... he puts the highest value.

SOME HOT DISHES FOR COLD NIGHTS.

There is nothing more satisfying and warming on a damp, chilly night than a good bowl of hot soup. Cream soups of different kinds may be had every night in the week, and the variety not run out.

One may have tomato bisque, thickening the cream of tomato for a change, or potato with a little onion and milk makes a most appetizing soup.

Another favorite dish is:

Spanish Rice.—Into a buttered baking dish put a layer of cooked rice, sprinkle with finely cut broiled ham, ... fried ham, a sprinkling of onion ... and seasoning of red and green ... chopped, salt and then another pepper ... Pour over a generous layer of rice ... and bake until amount of tom... through. The sea... thoroughly heated ... will make or mar soning of this dish ... it.

Southern Rice.—Melt a tablespoonful of butter in a frying pan, add a clove of garlic and a large chopped onion, a cup of washed rice. Keep stirring the rice until it is slightly brown and crisp. Then add a cup of tomato and fill the pan with boiling water. Cook until the rice is tender without stirring if possible, as each grain will stand out by itself.

Chicken Stew.—Cut up a chicken with a clove of garlic and two small onions; cook until half done, then add the following sauce:

Melt two tablespoonfuls of butter in a frying pan; add a tablespoonful of flour and a generous sprinkling of cayenne. When well cooked add salt and a cup of tomatoes; stir and cook, adding salt and sage, if liked.

Poached eggs are very nice for a supper dish with the above sauce.

A mixture of lard and suet makes a very desirable fat for almost all uses that lard would be put to. The soft beef fat is the best.

Nellie Maxwell.

The Onlooker

By WILBUR D. NESBIT

AFT'ER HIS'ER and HIM'ER

...forming;
Our language, 'tis true, needs re-
This principle long we have held.
Why, Teddy one time went a-storming
Concerning the way that we spelled;
But, "he'er" and "his'er" and "him'er"
Just lash us from worse unto worst;
The ladies grow grimmer and grimmer
And ask, "Why the masculine first?"

The men, since the days of old Adam,
Have been too presumptuous—why, he
No doubt said to Eve, "My dear madam,
The lord of creation is me."
Of course, Adam hadn't much grammar,
But right then, you see, 'twas begun—
This custom that raises the clamor
Because man will be Number One.

Suppose a man now speaks of his'er,
Of things owned by him and his wife:
She's apt then to think like a whizzer
Or say things to stir him to strife.
In tones of a busy town crier
She may show that husband his place
By saying: "They're mine, and not my'er"—
And that's sure to settle the case.

The suffragets may make demurrer
To this further slight of the sex
And order that "she'r" and "her'er"
Likewise our poor language shall vex.
Our simplified forms let's imprison
In silence, and let us all learn
That some things continue as his'n
And all that is left shall be her'n.

A quart of cream weighs about 2.1 pounds, and a quart of milk 2.15 pounds.

The period of time between the hatching of the chick and its first feed is critical.

In the Museum.

"Ha! Ha! Ha!" The sword swallower was laughing as if he had swallowed a pointed joke.

"Why so hilarious?" queried the inquisitive half of the two-headed girl.

"The legless man says he is taking steps to secure an inheritance," replied the dagger digester.

Genius and Its Tribulations.

"Genius," says the Washington Post, "is the most curious psychological phenomenon with which the mind of man has ever grappled." And the great trouble is that the mind of man never can be sure even while the grappling is going on that genius is really being grappled with.

Vicar Proves a Miser.

A vicar in Oxfordshire, England, who dressed so carelessly that he might have been mistaken for a tramp, and who was supposed to have died penniless, was found to have left a fortune of many thousands of pounds invested in London property.

AH PASSING few are they who speak,
Wild, stormy month, in praise of thee;
Yet, though thy winds are loud and bleak,
Thou art a welcome month to me.
—Bryant.

PAPER BAG DISHES.

For those who delight in the flavor of fish, there is no more agreeable way of serving them than when cooked in a paper bag. The bag must not be an ordinary, but one made for the purpose of the tough fiber paper especially prepared for such cooking.

One might have a paper supper, paper table cover or doilies and napkins, paper candlesticks and shades, paper favors and paper flowers for decoration. This would be especially appropriate for a paper wedding anniversary.

The cocktail may be served in tiny paper bags torn open to show their contents, the salad in paper cases and the meat and fish in individual bags piping hot, or a larger bag with the whole serving on a platter.

Halibut seasoned with tomato, lemon juice and butter will come out after fifteen minutes in a hot oven, swimming in its own juices and most delicious to the taste.

Apple dumplings baked in a paper bag are elevated from a common dish to a creation. Served with a sauce made of half a cup of softened butter, a cup of powdered sugar, a teaspoon of vanilla and half a cup of whipped cream, if it is handy, will be ambrosia fit for the goddess.

Salisbury Steaks.—Put round steak three times through the meat chopper, to have it well cut; mix with melted butter, salt and lemon juice, using one's own taste in regard to the amount used and depending upon the amount of meat. Pat out into long flat cakes and put into a well-greased paper bag to bake just ten minutes in a hot oven. Serve with baked potatoes.

Green bananas unpeeled, adding a little water to the bag, will bake nicely in twenty to twenty-five minutes and are a delicious accompaniment to the steaks with a little lemon and melted butter poured over them.

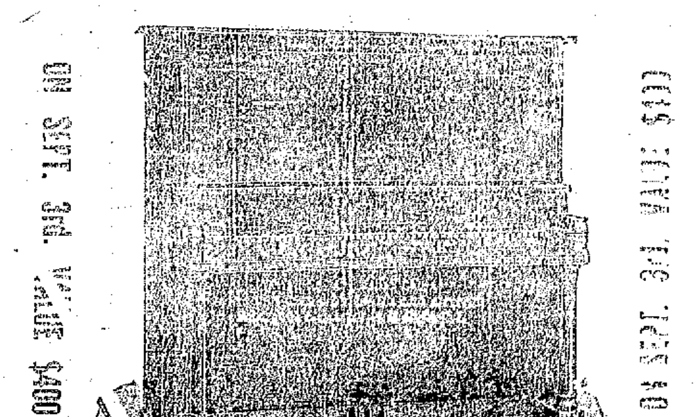

When baking small fillets of meat or biscuits, a griddle cake turner is an indispensable utensil in putting things into the bags for cooking.

Nellie Maxwell.

Must Have Faith.

We believe a business impossible if we have to make it so.—Wade.

THIS IS THE Piano We Give Away

What Seemed To Us To Be A Question, Is Now A Gratifying Success. It pays To Be Liberal With Our Trade.

Since we first announced that we should give away this Beautiful *Upton Parlor Grand Piano* to some one of our *customers on Sept. 3rd* our business has shown a big increase in every department. Of course the unusual values which we are offering have helped to make this increase and we shall continue along these lines. We are daily receiving new and attractive offerings from the Fashion Centers and you will find our stocks complete in all lines regardless of the heavy daily demand.

Be sure and ask for your Piano Votes with every purchase.

NEWSPAPERARCHIVE® NEWSPAPERARCHIVE®

Don't forget the water

Clean out feed troughs daily.

Pekins lay from 120 to 170 eggs per year

Alsike clover helps out the stand of red clover

A purplish red comb in the hen indicates health in a fowl

Test out infertile eggs on tenth and seventeenth days

A quart of mixed feed is about right for twelve hens

If you see eggs each day you know that your hens are comfortable

Do not make too many crosses. Select a type and stick to it

It is not so much the make of incubator as the man who runs it

Air slaked lime is a valuable disinfectant in the poultry house

Variety is always good but sudden and abrupt changes are dangerous

It pays in more ways than one to be on friendly terms with the heifers

The sort of seed corn to select is the kind that produces bushels per acre

Correct sour or acid soil with one to five tons per acre of crushed lime stone

To maintain normal soil fertility the supply of humus must be conserved

The business hen is the hen that puts her daily eggs in the egg basket

The only proper way to replenish the flock is to save the best pullets each year

A common cause of slow churning is an overfilled churn. Half full is about right

Dirty collars are probably as responsible for sore shoulders as ill fitting ones

Keep the horses well cleaned but remember that you can be cruel with the curry comb

The hopper system of feeding is a good one but put only one kind of feed in one hopper

The fault of too many dairy farmers is failure to make the cows produce up to their limit

Too much corn has caused the loss of many a fine litter of pigs and often the loss of the sow as well

In raising horses for one's own use it should be done as intelligently as if it were to be a regular business

Spraying is one of the unavoidable tasks of the farmer who would keep his orchard in desirable condition

Arsenate of lead which is held over from the year before will be good if it has not dried out and become a hard lump

When turkeys are penned up to fatten for market good results are not obtained if they are cramped for room

Now and then put a little brine on the straw. It acts as an appetizer and the sheep clean up the straw better

A heifer may give as much milk in proportion to the food eaten as a mature cow and make some growth in addition

A paint brush that has become hardened with paint can be made soft and pliable by immersing it in boiling vinegar

It is just as easy to multiply defects in breeding as it is to strengthen good points and many people are doing the former

The colt crop on the general farm may be made a by-product that will cost very little but swell the bank account considerably

Seed corn? Of course you have it all in good shape and ready for the germination test. Do not plant grain unless you know it comes from sound stock

The best medicine in the world for poultry are dry clean quarters and lots of sunshine. Better lose every other poultry recipe known than to forget this

The great need of the day is educated dairymen, men who understand the care and feeding of the cow as well as the successful marketing of its products

Test the spray hose several days before needed for spraying. Try it with the highest pressure you will use. If it bursts easily or leaks make the needed repairs in it or get a new hose. It will save delays at a critical time

Something similar to a scantling a foot or two from the ground is the only proper perch for turkeys. This allows the breastbones to grow straight, making the birds worth a cent or two more per pound on the market

It pays to spray intelligently

Look well now to the brood sows.

Buckwheat is an egg producing feed

Half starve your hens if you want no eggs

Examine the collar of your work horses often

Few horses can digest perfectly tough timothy hay

Hang cabbage where the hens have to reach to get it

Warm milk is the best thing to give calves on chilly mornings

Charcoal in the feed is good for correcting digestive troubles

Any incubator will do the work and one incubator will undo it

The fine lambs can be easily affected by unfavorable conditions

A good horseman never trots a draft horse or a when he has no load

The demand on the foal's digestive system for nourishment is very great

Don't let your hens mope. Give them plenty of dry earth, ashes, chaff, etc

Sunshine is the only disinfectant absolutely free. Then let us use plenty of it

The real dairy cow turns her food into milk and butter fat instead of meat

When you mark the date on an egg have a good honest man handle the stamp

Save eggs from hens two or three years old rather than from pullets for hatching

The live, ambitious, energetic poultryman makes it a point to hatch early chicks

If cream is too warm butter is very likely to come in soft lumps, with a greasy texture

Go over the nozzles of the sprayer and see that everything is ready for the spring work

With proper care and protection clipping is an aid to the health and condition of a horse

In a case of twins one is often weaker than the other and would die if not assisted to nourishment

Ducks do not need water for swimming but they must have plenty of absolutely clean drinking water

There is more fat lost in the skim milk through slow turning of the separator than through fast turning

Have patience with the lambs. A lamb saved now will be a five dollar bill in your pocket later in the year

Lambs should have milk within a few minutes of birth and if not able should have quiet and quick assistance

Don't think that a calf which is fed regularly on milk does not need water. Milk is a food and does not quench thirst

Two parts corn and 1 part each of wheat and oats fed in a litter make a well balanced morning feed for the layers

The open range is best for young turkeys but they must not be allowed out during a shower or before the grass is dry

There is this to say for the fruit tree peddler. If it were not for him many a farm would have little or no fruit on the place

New York's butter bill for one year at retail prices amounts to $5,000,000. The cheese bill for the same time is $1,000,000

In building new quarters for swine the foundations should be made permanent and the floors double and wind and water proof

In setting out peach trees no side branches need be left. They may be cut back to a whip. With apples and pears only one year old wood should be cut back

Can you handle the ax well? Then have one of those roosters for dinner next Sunday. Get them out of the flock. They are a nuisance to the laying hens

Although the dairy business is not all profit still there is enough to be made from it to offer the very best of encouragement to any one who will handle it right

The dairyman who does not realize the full value of his skim milk is not getting the most that he can out of his farming. Upon use of the by products depends much of the profit from dairying

All trees and shrubs in fact all perennial plants must have a period of rest. This is true even of the evergreen whose foliage while retaining its color, is as nearly destitute of vitality during the winter as those trees which shake off their leaves in the autumn

A STRANGE CASE

[illegible]

THE DEAL HE WANTED

"I expect a great deal from you" he said as he looked knowingly at the gentleman across the table

All right replied the other

And he dealt him four kings but had the forethought to deal four aces to himself

No gentle reader there was no intention to insert a pun in the word forethought

Housekeeping Made Easy

[illegible]

The Rubicon Incident

It is 49 B. C.

Colonel Julius Caesar stands on the banks of the Rubicon talking to himself and holding his audience spellbound

The die is cast! Heads I win and tails you lose!

So saying he plunged into the stream and invaded Italy

True enough he invaded that land on the boundary opposite the Rubicon But history and geography never did get along very well together

The Facts in the Case

"Ah" he mused "an General Shootemup is dead Sic transit gloria mundi"

"But he died on Thursday" responded the person who was densely materialistic and did not know a classical quotation from a sardine label

Fish Stories

First Octopus—Here comes old Shark Let's swim away

Second Octopus—Why?

First Octopus—Oh he's always telling about the time he caught a man ten feet long and let him get away

Picturesque Venders in Labyrinth of Treasures.

Merchants of These Shops Are the Most Patient in Old World—Temptation to Buy Sends Tourist Away Penniless

Cairo Egypt —The bazars of Cairo are a network of narrow lanes turning and crossing one another in so bewildering a manner that the stranger would lose his way in them in ... of five minutes walking. The only reminder of our own world writes an English visitor in the Queen is the tourist ... (and ...) has a native dragoman dressed in the beautiful silks of the country

It is amazing what quantities of their ware these men of the bazars get into the small space at their disposal And they are so keen on their business They bargain with such zest

"There are booths of every sort and description from those where one sees priceless silk carpets from Persia to those where are heaped the merest trifles and seated in the middle of each booth (when not engaged in bargaining or ingratiating himself to possible buyers) sits the owner murmuring the attributes of Allah to his amber beads or smoking a cigarette in contemplative silence

One lovely part to wander in is the brass bazaar It seems one can get everything conceivable in lovely carved brass ... beautifully inlaid with ... This is a very ... bazaar and one is served with coffee and Turkish delight

In one part they make the queerest things—[illegible] done in rough applique work in coarse [illegible] There they sit tailor fashion on the floor of their stalls stitching away with the greatest diligence and when any one stops in front looking up their wares to the [illegible] They are very good natured in the way they will show their wares even though you tell them you have no intention of buying Of course they do it in the hope that you may be tempted to buy something but they are certainly patient It is of course one of their famous characteristics in business—enormous patience

Then there are the stalls of little trifles quaint and charming and most fascinating though of little value There is a tiny model of a mummy case about half an inch long which in spite of its smallness opens and behold! inside a funny little doll supposed to be a model of a mummy And here is Moses in the bulrushes and the lotus flower on a very conceivable thing—hatpins brooches charms and so on

The precious stone stall with its

Looking Across City of Cairo

[illegible] stones of all sorts is a delightful place in which to spend some time poking about and enjoying a good look at them all If one can afford it, it is a good plan to take plenty of money to the bazaars but if on the other hand one has to restrict the amount to be spent it is as well to empty all extra cash out of one's purse, or the temptation will certainly be too great and the extra will melt away Everything always seems such a bargain and far too good to miss but if the money is safely left behind there is time to cool down

PLUCKS FEATHERS IN A CAR

Stranger Despoils Fair Trolley Passenger's Millinery and Escapes Pursuers

Berwick Pa —Seated in a crowded trolley car here a well dressed stranger aged about forty five leaned across the aisle plucked all the feathers from an expensive hat worn by Mrs James Kleckner of Briar Creek and then hurled them in her face Before eyewitnesses recovered from their astonishment the stranger had jumped from the car and running at high speed, eluded pursuers

Spiritualist Fined $25

Chicago —When Mrs Annie Schoemaker, charged with fraud through spirit seances failed to make the spirits answer in court for the benefit of the judge, she was fined $25

Makes good Cooks and good Cookies

Cottolene is so much better than butter or lard for frying and shortening, in healthfulness, quality and results, that there is but one other point to be considered —*Economy.*

Cottolene, being richer than lard, one-third less is required to secure best results. *Cottolene* is therefore immeasurably superior both from an economic and a health standpoint.

The only woman who isn't using *Cottolene* is the woman who hasn't tried it thoroughly, for *Cottolene* is winning converts every day.

To sum it up, no other product is equal to *Cottolene* in cleanliness, healthfulness and economy.

[illegible]DIES WILL NEVER COME TO SURFACE

Boston, April 18 — The bodies of the victims of the Titanic are at the bottom of the deep never to leave declared Prof Robert W Wood [illegible] the chair of experimental physics of Johns Hopkins university

It is altogether improbable that any of the corpses will ever return to the surface as is the case with bodies drowned in shallow water

At the depth of two miles the pressure of the water [illegible] 6000 pounds to the square inch [illegible] far to great [illegible] ordinarily given drowned bodies [illegible]

That the bodies sank to the bottom of the sea there is no [illegible] [illegible] be continued [illegible] who were not [illegible] the last followed until the bottom of the sea was reached. There was no such thing as their stopping in their downward course a mile or so or at any other point

Great changes necessarily have been wrought in the vessel itself by the enormous pressure to which it has been subjected. No effect was produced on any portion or compartment or room to whose inside as well as outside walls the water had access. In such instance the pressure from one side neutralized that from the other

But wherever there was an air tight or water tight compartment the 6000 pound to the square inch pressure of water has crumpled those walls of the vessel as if they were tissue paper

MAN IS ELECTROCUTED AT GIRARD ALABAMA

Girard Ala April 18 [illegible] Henderson of this city a concrete foreman in the employ of the Stone and Webster corporation of Columbus Ga, was electrocuted Tuesday night about the time he was leaving his work for home by coming in contact with a wire containing 11 000 volts. Death was not instantaneous as he did not come in full contact with the wire and fellow workmen did all that could be done to restore him but to no avail

Mr Henderson was forty years of age was well liked by all who knew him and held in high esteem by his employers. He is survived by a widow and five small children

A MEDICINE AS GOOD AS YOUR MONEY

Money Promptly Refunded if Dodson's Liver Tone Fails to Take Place of Calomel

The Nix Drug Company sells Dodson's Liver Tone [illegible] perfect substitute for calomel. If you buy one bottle and find that it is not just as sure in its action as calomel and at the same time gentler and without the bad after effects of calomel [illegible] get your money back. It will be given you promptly. Dodson's Liver Tone is a vegetable liquid with a pleasant taste that livens up the liver [illegible] but [illegible] instead of whipping it into action as the strong chemical calomel does. It is used by both children and grown ups for constipation and inactive liver

That is why the Nix Drug Company is willing to guarantee it absolutely not with another bottle but with your money back [illegible]

COTTON SEE[illegible] WAY OFF THIS YEAR

Washington April 18 [illegible] In the cotton region [illegible] very [illegible] [illegible] the middle [illegible] the heavy rains of the past week still further [illegible] the progress of the usual spring operations

This is the statement of the weather bureau's crop bulletin. Continuing, the quotation says

In portions of the lower Mississippi valley large areas are under water from the severe flood and there will be much delay in the usual spring work. In the winter wheat states east of the Mississippi the heavy snowfall of the past winter has left the soil well filled with moisture and the unusual snow covering doubtless proved highly beneficial to the wheat planted during the prevalence of the severe cold

In the winter wheat states east of the Mississippi the snow covering was generally smaller and afforded less protection during the severe cold. The soil is generally well saturated with moisture and the favorable weather of the past week has rapidly forced vegetation forward in all portions of the belt

In the spring wheat region snow fall was generally less than usual but good rains during the past week have put the vacant soil in good condition and the weather was generally favorable for outside work

CORRECT DRESS FOR WOMEN

THE HARMONCLARKUNDERHEARST MINSTR

Clover or other legume crop every four years is absolutely necessary to maintain the nitrogen of the soil for corn wheat oats timothy and like crops

A litter carrier will add much to keep the barn clean because the boys and men will work more readily than if they had to depend upon the old method

There may be certain lines of farming in which it is difficult to keep a definite account of the cost and profit but dairying is not one of these There is no excuse for ignorance on the part of the dairy farmer

The constructing of permanent highways is rapidly increasing in every state and territory This is not only for pleasure car but also for the motor truck which in a short time will play an important part in the handling of products not only for the seller but for the producer

If from any cause a cow is very thin or weak she should receive special strengthening food before calving

Churning should be stopped when the butter granules are the size of wheat kernels, or better a little larger

Carelessness in artificial brooding of chicks brings its curse as surely and as swiftly as in any other undertaking

Observation has shown that poults raised by the turkey hen will average more in weight than those cared for by a hen

Ducking the head of a roupy bird in a mixture of 1 ounce of permanganate of potash to 3 pints of water will often effect a cure

That cows likes a variety of feed is proven by the fact that they may often be found chewing rotten hay old straw stalks etc

At least three weeks before are due to raise the heavy feed be discontinued

Sheep and poultry were never to leave land the poorer for having been on it

Quick intelligent attention save a lamb or a pair of the often the ewe as well

Some succulent feed should plied during the winter to keep sheep's system in tone

All eggs that are undergoing bation should be examined twice by means of a tester

A load or two of well rotted nure scattered about the lawn will make the grass thicken up

Turn up a bit of earth with now and then and see your chicks go for the worms and it

Local Druggist Gets Agency For Strange New Medicine

Remarkable New Liquid That Created Sensation in Atlanta Is Brought Here by W. T. Brown and Demonstration Opens Today

The new Root Juice medicine which for some weeks has created a furore in Atlanta by its strange cures of rheumatism stomach trouble kidney and liver disorders and similar complaints has been brought to this city through the efforts of W T Brown who will open a demonstration at his store today The store management has just received full instructions and particulars from the laboratories regarding the medicine and preparations have been made to handle the enormous demand that is expected to arise as soon as home people learn that the medicine can now be had here

In a personal letter to the druggist the scientist said I feel safe in saying that Root Juice will open the eyes of many of your people as [illegible] its wonderful power over [illegible] becomes known In every city I have visited the medicine has created a sensation by the many [illegible] it effected and [illegible] look [illegible] the same thing in your city There are of course some people everywhere who doubt the truth of some [illegible] that have been published but do not let that worry you Before [illegible] Root Juice two weeks you will [illegible] that will [illegible] and [illegible] your friend If any of our customers doubt the reports that have been published they will not do so very long for they will soon hear some interesting facts from their own friends and acquaintances who try it

"They will soon see with their own eyes cures that they must believe

Some ignorant people have started rumors to the effect that Root Juice has a supernatural power and that it really works miracles but of course that is not only untrue but ridiculous The liquid is made principally from a collection of roots and herbs from which the medicinal qualities are extracted by soaking in water heated to [illegible] temperature There is nothing unnatural and nothing the least harmful in it and its strange power over disease lies simply in the skillful and scientific combination and proportion of its ingredients I have spent the best part of my life and many thousands of dollars in perfecting it but I feel more than repaid for already it has brought health and sunshine into the miserable and darkened lives of countless poor sufferers who [illegible] expected to get well

In view of the wonderful success of the discovery in Atlanta and other places it will be interesting to watch the results of its use here for it is expected that many sufferers from chronic complaints such as stomach trouble kidney liver and bowel disorders and rheumatism will not be slow to grasp the opportunity to regain their health

NOTES *from* MEADOWBROOK FARM
By William Pitt

Pullets make best breeders

A humped up chicken never lays

Dairying succeeds best near a large city

Wheat bran is rich in egg making material

With the better poultry is coming better equipment

It is cheaper to buy eggs than stock —but order early

As a rule it will pay any farmer to raise his own horses

It is not economy to try to save time when feeding sheep

If a cow is too fat reduce her feed and give her more exercise

The hen is the best dividend payer on the farm—when handled right

As farrowing time draws near do not feed any corn to the brood sows

A pure bred dam of course will almost eliminate the element of chance

The well hatched chick should be kept quiet until the end of the second day

A good driveway makes a better [illegible] than can be hired in any state

The trouble with all incubators is that they are too high not in price but off the ground

After the lamb has its first fill of its mother's milk it can usually look out for itself

IT'S THE CUT THAT COUNTS

You will find the cut of our Spring Suits entirely different from any ready to-wear clothes you ever tried on Every suit, every garment, every line shows the experienced tailor's careful touch.
